The Asymmetric design of the TEC513 means nothing gets in the way of you getting the job done.

The TEC513's unique asymmetric design positions the vehicle so the doors can be fully opened while the vehicle is on the lift, making cabin access easy – no more damaged doors!

The safety of the hoist operator is imperative, that is why when you choose a Tecalemit Hoist; You know it is SAFE. With Tecalemit safety features such as a built in mechanical load level device, this ensures the vehicle remains level at all times, fully automatic arm locks and lowering alarm, you know you're safe.

Tecalemit also life test each hoist to meet the Australian Standard AS1418.9:1966, see the life test video on our website – www.tecalemit.com.au
